Subject Estimate for the Comprehensive Drainage Scheme at Tyamagondlu Town

Sir

I have the honour to state that an estimate for Rs 17,270/- has been received from the Director of Public Health for the comprehensive drainage scheme of Tyamagondlu Town in this District The scheme comprises of five stages as noted in the

Stages	Rs
1 Construction of main drains	1,049
2 of 8 street drains	1,468
3 Improvement of existing collecting drains	2,438
4 Construction of outfall drains & outfall works	5 000/-
(the last is proposed to be taken up in 2 instalments)	9955

Estimate	
Main drains	6,448/-
street drains	4 988
Outfall works	2,900
	14,336
Supervision charges 14 284	
Contingencies @ 5 %	730
Tools & plant charges @ 12½ %	1920
Total estimate	17 270

margin and the Sanitary Engineer suggests that if this programme is followed it would be within the means of the Municipality to carry out the drainage scheme in easy stages as and when funds permit The necessity of good drainage is keenly felt at Tyamagondlu

2 The Municipal Council were consulted as to the ways and means of financing the above scheme they have resolved at their meeting held on 14-5-42 that the scheme may be spread over a period of 5 years and that the entire cost be met by Municipality and Government in equal shares Accordingly a sum of Rs 500/- has been provided in the budget of the Municipality for the year 1942-43 A Government grant of Rs 500/- has also been sanctioned for the work out of Town Improvement grants for 42-43 in Government Order No L 8778-91 M L 103-42-5 dated 4-2-43

3 Hence the first stage of constructing main drain which is estimated to cost 1049/- will be taken up and completed during the current year

4 The finances of this municipality are slender and the average

(5) average income and expenditure mor or less balances each other Hence the drainage scheme cannot be taken up and completed without adequate Government grants every year In these circumstances, I request that sanction of Government may be kindly obtained to the estimate for Rs 17,270/- and to grant half of the estimated cost from Town Improvement grants in instalments for a period of 5 years The Sanitary Engineer has been requested to push through the 1st stage of drainage during the current year in anticipation of sanction of the comprehensive estimate

Connected records with estimate and plan are enclosed for favour of reference and return

I have the honour to be
Sir,
Your most obedient servant,

Deputy Commissioner,
Bangalore District
